

Meritor Parts

Meritor Part - Meritor is a premier international dealer which is proudly built on a one hundred year tradition of service and quality. They focus on several modules, integrated systems and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the wishes of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in just hiring future focused individuals. These top-caliber workers could rapidly get used to to changing surroundings and freely demonstrate the level of commitment and performance required so as to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides all their staff various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their international engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all over the globe in 19 nations and in 5 different continents.

They have their supplier network which is particularly located in order to support the growth of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every aspect of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in every region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business processes and implement lean techniques.
